U.S.Fish Hydrolysate 2-3-1

About U.S.Fish Hydrolysate:

- U.S.Fish Hydrolysate is produced by the enzymatic digestion of fish.
- U.S.Fish Hydrolysate is a rich source of natural protein and mineral nutrients both for plants and for soil microbes.
- Not produced with caustic hydroxides.
- U.S.Fish Hydrolysate can be applied to flowers, fruit, vegetables, ornamentals, turf, tree and vine crops, field crops, row crops, trees, etc.

Mixing Instructions:

When mixing with water, fill container halfway, then add product and the remaining water.

Gallon Mix: While agitating the solution add 3 fluid ounces of U.S.Fish Hydrolysate to 1 gallon of water.

Tank Mix: While agitating the solution, add 1 gallon of U.S.Fish Hydrolysate to 50 gallons of water.

Directions For Use: Shake well before use. Do not store diluted.
Shelf life is 2 years from date of purchase.

Application Rates

Vegetable Crops: We recommend 3 gallons per acre four times a year. First application at planting, second when the first leaves grow, third at the preblossom stage, and the fourth at pre-harvest.

Seed Germination: Let the seed sit in a solution of 1 teaspoon of U.S.Fish Hydrolysate per cup of water.

Turf/Lawn: Use the U.S.Fish Hydrolysate tank mix instructions and apply monthly during growing season and again in late fall.

House Plants: Use 1 tablespoon of U.S.Fish Hydrolysate per gallon of water every 2-3 weeks.

Outdoor Plants: Use 3 tablespoons of U.S.Fish Hydrolysate per gallon every 2-3 weeks.

Guaranteed Analysis:

Total Nitrogen (N) 2.0%
1.7% Water Soluble Nitrogen
0.3% Water Insoluble Nitrogen
Available Phosphate (P2O5) 3.0%
Soluble Potash (K2O) 1.0%
Derived from: Fish Hydrolysate (stabilized with phosphoric acid) and Sulfate of Potash.

Product Sizes Available:

1Gallon 2.5Gallons 5Gallons
55Gallons 275Gallons
